

To Succeed in Life

To be successful at what you do
you've got to have the wright attitude
With success there is always failure
so you can learn from ones' aptitude

When you compete for juicy steaks
there could always be a slight defect
Let's face it we all make mistakes
as there is no one who can be perfect

Life may grind you down on a train you want to ride
when it's not going your way you don't want a big slide
Motivation is on the cards so you're not going to hide
instead of falling down you'd rather have lots of pride

To succeed in life, you have to have good mates
they are there when needed not on skates
To respect those around you, you must find their fate
they help out when faded not there for bate
To feed their life you must appreciate
that they are not shaded by having great mates
