

## **Getting Involved**

You go to a night club  
to see what you can find  
But it's the booze  
that's on your mind

You look for someone to love  
so you bring out the charm  
With what makes you merry  
they'll be in your palm

You have managed to score  
by drinking all that booze  
We are now a couple  
but who knows if we'll fuse
