

## **Problem Solving**

Our leaders have to be logical thinkers  
and not those who were blinkers  
Because humans seem to be blind  
with all this money on our mind

Earths problems can easily be solved  
with everyone getting involved  
Total change has to be done  
or we all will end up gone

Let's get rid of this evil money  
or it won't end up sunny  
It's not much of a life  
with us ending up in strive
