

So Lazy

You pull up and wait
for that car to exit
so you can be near
to enter the mall

You park in front
of a chain or gate
just because your rear
has ended up late

We take the lazy option
when given a choice
walk upstairs or ride the escalator
it's our health that says c u later

We take the crazy option
when given a choice
park legally or be a handicap
everyone is thinking u weedy sap
