

Evil Bullies

Bullies are not born they have been created
by those who don't care about how to be fare

Bullies see something wrong when they look at you
they think what a freak I'm going to abuse you

Bullies think their strong when they look in a mirror
they think I'm not week I'm as strong as glue

Bullies like to manipulate by using their power
and they try to punctuate to make you cower

Bullies like to humiliate by making you a bower
and they like to dominate to make you feel sower
