

Quality of Life

Quality of life can only happen
when human problems can be solved
not just plastered over

Quality of life can only happen
when you have parents
that really care

Quality of life can only happen
when people can respect you
for who you are

Quality of life can only happen
when you think of others
rather than yourself

Quality of life can only happen
when everyone thinks that no person
is no worthier than anyone else

Quality of life can only happen
when people don't suck up
to get what they want
